THE REWARDS OF TRAVELING THE WORLD FOR PROFIT AND PLEASURE

Memories and investments to last a lifetime ...

To travel is to live! I have been travelling the world for the past quarter century in search of the very best the world has to offer in the way of opportunity.

Over my many years of travel, I have experienced much. However, when I travel I don't just follow along with the masses hitting the typical sights in the usual sort of way. I get off the beaten path. I interact with the locals. I experience what is truly unique to any given destination. I savor the moment in every location.

By nature, I am entrepreneurial and I seek out the worlds' entrepreneurs. I am drawn to them as I travel and I have met quite a few successful people the world over.

After 25 years, I am ready to share all my knowledge with you. After all, what good is any treasure if it is not shared? I want you to see what I have seen. I want you to taste what I have tasted. I want you to breathe in all that I have experienced and I want you to meet the people and hear about the opportunities that I have discovered. I want you to travel ... and live ... what I have travelled and lived for the past two and half decades.

If you want a group, discount travel package that focuses on tourist traps with little to no local flavor, you do not need me. If you want to wander through exotic destinations while rarely interacting with the people who inhabit them, you do not need me.

However, if you want to immerse yourself in the culture, intimate yourself with the locals, uncover the opportunities that abound across the globe, you need to travel the world with me. I am burning with the fire of life and its opportunities, and I want to share them with you. Please join me on any, or all, of these once-in-a-lifetime excursions. You will not be disappointed that you did.

Michael Checkan

President

Our mission is to venture to different parts of the world to find investment and business opportunities combined with the experience of traveling with unique, wealth-minded individuals.

We look forward to showing you the world on our **Advantage Expedition Trips!**

Argentina

February 21 – March 1, 2009

BUENOS AIRES * SALTA * CAFAYATE

Breathtaking vistas ... World-class wines ... Unbridled opportunity. Moreover, it is all right in our backyard.

I am not talking about the intersection of Wall Street and Main Street. Daily you hear enough about that from the mainstream news media. If bailout packages and bank failures have cast significant doubt about your traditional investments and their ability to meet your long-term growth and capital preservation needs, Argentina may hold part of the solution for you.

Join 25 wealth-minded delegates and me as we travel to beautiful Argentina. I will introduce you to the experts that offer the best tax structures to protect your investments, real estate bargains across the region, forestry developments, vineyard trusts and many other benefits of the upswing in the Argentine economy.

Argentina boasts steady growth since the crisis of 2001. With all the uncertainty in our own market, it is time to look abroad for opportunities and diversification. Oh, and we'll have a bit of fun as well in the South American jewel wrought with history, culture, tradition ... a cornucopia of opportunity!

Switzerland

May 9 - 17, 2009

GENEVA * NEUCHATEL * INTERLAKEN * ZURICH

When you think of Switzerland, you think about exquisite chocolate, precision timepieces, neutrality and of course, private banking. This tiny European wonderland, snuggled up against the awe-inspiring Alps, is where the world turns for state-of-the-art banking with the best the world has to offer in terms of privacy and confidentiality.

You are invited to travel with 40 delegates and me to partake in an exclusive, private tour of the best of Swiss private banking. We will visit Neuchatel, Geneva and Zurich as we meet with the preeminent bankers, asset managers and asset protection specialists the world has to offer.

Don't worry, we will have plenty of time to breath the crisp alpine air as we dine on world class cuisine, sip heavenly wine, and maybe even sample a bit of those chocolates and desserts you have heard about.

In these uncertain economic times, you can be certain of one thing ... there will be an inevitable flight to safety and capital preservation. See why Switzerland will undoubtedly benefit as Wall Street and Main Street continue to collide.

Austria

September 19 - 27, 2009

VIENNA * DURNSTEIN * BRATISLAVA, SLOVAKIA

Centuries of culture have shaped this European nation. Alpine vistas conjure up images of the Van Trapp family. Delicate strudels and sturdy bratwurst have lured visitors to the home of the Vienna Philharmonic for decades.

Amidst all these unique pleasures, lies a rock solid banking tradition as well. Austria boasts some of the world's most stringent banking traditions. After all, bank secrecy is so important in Austria that it is immovably written into the constitution.

Join 40 wealth-minded travelers and me as we explore this best kept Austrian secret. I will personally introduce you to private bankers and asset managers who will explain the advantages that Austrian banking affords you. Take this once in a lifetime opportunity before the collision of Wall Street and Main Street closes the door to overseas banking at precisely the time when you need it the most.

As always, we will find ample time to enjoy a culture shaped through centuries as we roll up our sleeves and get serious about protecting the assets for which you have worked so hard to accumulate. If you have not visited Austria yet, this is a must. It is truly one of my favorite places to visit my money, and I have visited many such places over the past quarter century.

Australia

2010

PERTH * MELBOURNE * SYDNEY

Founded as a penal colony in 1770, Australia is as beautiful as it is immense and diverse. Its vast resources are the story here. From the international city of Sydney boasting the beautiful landmark Sydney Opera House, to the untamed Outback, to the world class diving off the Great Barrier Reef, Australia is breathtaking.

As the commodity bull markets gathers momentum, real estate, base metal mining, and precious metal production make Australia a hotbed of opportunity. Join 40 likeminded individuals and me as we travel from the 110 year old Perth Mint (home of the only government guaranteed precious metals storage program in the world – the PMCP), to the world's largest open-pit gold mine in Kalgoorlie, to the splendor of Sydney Harbor.

We will meet with the experts living and thriving in this unique South Pacific Island nation and continent. We will explore opportunities for investment far from the chaos of Wall Street and Main Street's intersection. In addition, we will enjoy some of the very best food and wine the world has to offer while taking in stunning vistas.

This trip is a must. Australia is at the forefront of the commodities boom. See firsthand why that is the case and how you can profit from it.

- Meet alternative investment specialists – commodities, land – places to invest and to live and retire – precious metals specialists, from the miner to the mint
- Traditional investments too, but international orientation, private bankers, asset managers, insurance specialists, asset protection attorneys.
- Travel with the specialists, not just a lecture and disappear, but instead formal and informal discussions.
