The Rewards of Traveling the World for Profit and Pleasure *Memories and Investments to Last a Lifetime ...*

I agree with Hans Christian Andersen who said, "to travel is to live." I have traveled the world for the past quarter century in search of investment and business opportunities as well as for pleasure.

Guided Tour of Zurich, May 2009

My trips outside the United States were oftentimes with different investment groups sharing my insights

about precious metals and foreign currencies. Over the years, I have made many contacts with other financial experts and have amassed many experiences and wonderful memories.

When I travel, I don't just follow along with the masses going to the typical sights and meeting the 'usual suspects.' I get off the beaten paths. I interact with the locals to experience what is truly unique. I savor the moment in every location. By nature, I am entrepreneurial and seek out the world's entrepreneurs. I am drawn to them as I travel and have met many successful people the world over.

Michael Checkan
President

After 25 years, I am ready to share my knowledge and contacts with you. After all, what good is a treasure if it is not shared? I want you to see what I have seen. I want you to breath in all that I have experienced, and I want you to meet the people and hear about the opportunities that I have discovered. I want you to travel and to live ... just as I have for the past 25 years.

My Advantage Expeditions are not your typical tourist travel packages. Rather, the advantage of my trips is that I will introduce you to my investment and business contacts (*Friends Helping Friends*) and discuss opportunities for making and growing assets across the globe. Join me on any, or all, of these unique opportunities to travel the world and find investment and business opportunities, and of course pleasure. I promise that you will not be disappointed.

Argentina

FEBRUARY 26-MARCH 6, 2010

We begin our Expedition in Buenos Aires, “the Paris of Latin America.” We will enjoy this beautiful city before heading on to Salta, the regional capital of Salta Province. Then we travel onto Cafayate through beautiful countryside to visit this wine growing region and a unique real estate development.

Argentina may hold part of the solution for you if US bailout packages and bank failures have cast doubt about your traditional investments and their ability to meet your long-term growth and capital preservation needs.

Argentina offers both business and investment opportunities. Join a small group of like-minded delegates and me as we travel to beautiful Argentina where I will introduce you to the local experts that offer a variety of traditional and alternative investment opportunities: real estate bargains in Buenos Aires and outside, forestry developments, vineyard trusts and traditional investments too at a seminar in Buenos Aires after a visit to the Bolsa (stock exchange).

With the uncertainty in our own markets, it’s time to look abroad for living and retirement opportunities and investment diversification. And, we’ll have a bit of fun with visits to see tango dancers, enjoying wonderful steak barbecues with delicious Argentine red wines and much more.

Cafayate,
Argentina 2008

Austria

MAY 21-30, 2010

Vienna, Austria 2008

We begin our Expedition in the “Imperial capital” of Vienna where we learn about private banking from one of the oldest banks in Austria. Then we take a boat ride on the Danube to historical Melk then on to the wine town of Durnstein. We stay overnight at a castle on the Danube and hear a discussion about wine as an investment along with some wine tasting. Eventually on to Salzburg to learn about Eastern European real estate as an investment before returning to Vienna for a discussion about art as an investment.

Learn about alternative investing and traditional banking with an emphasis on alternative investments. Austrian banks boast some of the world’s most stringent banking traditions. After all, bank secrecy is so important in Austria that it is written into the constitution.

Join our small group of wealth minded travelers and me as we explore using Vienna as your private banking center for traditional investments and a number of alternative investments. I will personally introduce you to friends who will help you protect and grow your assets. If you have not yet visited Austria, this Expedition is a must. Vienna is my favorite city in Europe. Join me to learn why.

Switzerland

SEPTEMBER 17-26, 2010

Geneva
Swiss Advantage 2009

When most people think of Switzerland, they think of chocolate, beautiful countryside, watches, neutrality and of course, private banking. This is the country where private banking was born and it is one of the reasons why one third of the offshore wealth of the world ends up in this Alpine country.

You are invited to travel with a small group of delegates and me to meet private bankers, asset protection attorneys and international asset managers on an exclusive private tour. We will stay at five-star hotels in Geneva, Neuchatel and Zurich with side trips to Interlaken and Lucerne. In these uncertain economic times you can be certain of one thing — there will be an inevitable flight of capital to safety and capital preservation — a landmark of Swiss banking and investment tradition.

And, it will not be all work with a visit to a famous watch maker and tour of the Alps and much more. I promise we will have plenty of time to breathe the crisp alpine air as we dine on world class cuisine, sip excellent Swiss wine, and maybe even sample some of the world famous chocolate and ice cream.

Why Advantage Expedition Tours?

- Meet alternative investment specialists — commodities, land — places to invest and to live and retire — precious metals specialists, from the miner to the mint.
- Traditional investments too, but international orientation, private bankers, asset managers, insurance specialists, asset protection attorneys.
- Travel with the specialists, not just a lecture, but instead formal and informal discussions.

Events and dates may be subject to change.
